

III. SEQUENCE LISTING

A revised sequence listing accompanies this response. Several changes have been made to the sequence listing.

A sequence specified in the text as filed did not appear in the sequence listing. This sequence has now been added as SEQ ID NO 11. This sequence appears in the specification as filed at page 15, line 28.

Several errors in the sequence listing have been corrected. SEQ ID NO:3 in the sequence listing inadvertently left off a methionine at position 4 of the sequence as set forth in the specification as filed at page 6, line 22. SEQ ID NO:2 in the sequence listing inadvertently left off a lysine at position 12 of the sequence as set forth in the specification as filed in Table 1.

The amended paper Sequence Listing does not introduce new matter, and that the content of the paper Sequence Listing and the computer readable form copy is the same and includes no new matter.
